BrainsCAN
Transforming brain research.

MEDICAL INNOVATION FELLOWSHIP

Western's Medical Innovation Fellowship program is designed to provide the most in-depth training experience in neuroscience and health technology innovation within Canada.

The program offers a multidisciplinary experience that focuses on creating solutions to real world problems within a clinical and research environment. As one of the locations for clinical immersion, BrainsCAN offers a rich environment to explore identified needs in cognitive neuroscience. Selected candidates will have the opportunity to work with experienced professionals from Western, London Health Sciences Centre, St. Joseph's Health Care London, Ivey Business School, local industry and the University of Minnesota's Medical Devices Center.

ACCELERATING CAREERS IN HEALTH TECHNOLOGY

11 MEDICAL INNOVATION FELLOWS OVER TWO CYCLES

3 STARTUP COMPANIES FORMED AND 3 US PROVISIONAL PATENT APPLICATIONS SUBMITTED TO DATE

Further information on BrainsCAN programs can be found at brainscan.uwo.ca

BrainsCAN's Medical Innovation Fellowship is part of Western's \$66M BrainsCAN initiative, supported by the Canada First Research Excellence Fund (CFREF). BrainsCAN brings together scientists from all disciplines, working across species and levels of analysis, to find effective solutions for maintaining a healthy brain.
