Transforming brain research.

POSTDOCTORAL FELLOWSHIP PROGRAM

BrainsCAN is bringing the world's most promising early career cognitive neuroscientists to Western University through the Postdoctoral Fellowship Program. Neuroscientists whose innovative work has already achieved impact, and who have demonstrated great potential for continued contributions are being recruited to the program.

Western University is already ranked amongst the best in the world in cognitive neuroscience and neuroimaging. Postdoctoral Fellows will access BrainsCAN-supported research facilities for neuroimaging; studying human cognition, behaviour and sensorimotor control; development and use of computational methods; and establishing and exploring models of cognition and behaviour.

\$5.7M IN FUNDING COMMITTED FOR 39 FELLOWS

ACCESS TO A NEW STATE-OF-THE-ART FACILITY

OPPORTUNITY TO WORK WITH WORLD-RENOWNED RESEARCHERS

Further information on BrainsCAN programs can be found at brainscan.uwo.ca

BrainsCAN's Postdoctoral Fellowship Program is part of Western's \$66M BrainsCAN initiative, supported by the Canada First Research Excellence Fund (CFREF). BrainsCAN brings together scientists from all disciplines, working across species and levels of analysis, to find effective solutions for maintaining a healthy brain.
