MCGILL-WESTERN COLLABORATION GRANT

The McGill-Western Collaboration Grant supports impactful research that leverages the unique Healthy Brains for Healthy Lives and BrainsCAN collaboration funded by the Canada First Research Excellence Fund.

The grant is designed to address challenges in brain health across the lifespan through potentially high-risk and high-gain research projects. These challenges are addressed by cross-institution multidisciplinary teams of Healthy Brains for Healthy Lives and BrainsCAN researchers.

**TRANSFORMATIONAL RESEARCH IN NEUROSCIENCE
AND NEUROINFORMATICS**

**7 COLLABORATIVE PROJECTS TOTALING OVER
\$3.4M IN COMBINED FUNDING**

**PROJECTS INCLUDING DISCOVERY-BASED SCIENCE
AND TRANSLATIONAL RESEARCH**

Further information on BrainsCAN programs can be found at brainscan.uwo.ca

BrainsCAN's McGill-Western Collaboration Grant is part of Western's \$66M BrainsCAN initiative, supported by the Canada First Research Excellence Fund (CFREF). BrainsCAN brings together scientists from all disciplines, working across species and levels of analysis, to find effective solutions for maintaining a healthy brain.
