HEALTHY VOLUNTEERS WANTED
fMRI Research On Digital Media & Cognition

- Would you like to participate in a study to help understand the impact of digital media (e.g., film, TV, video games) on cognition and emotion?
- If you are healthy and between 18 and 45 years of age you may be eligible to participate
- The study is being conducted by researchers at the Brain and Mind Institute at University of Western Ontario
- The study involves questionnaires and an fMRI (functional magnetic resonance imaging) scan while complete computerized tasks.
- You will be compensated for your participation
- For more information please contact Dr. Mitchell’s research office:
